## *Directors' Report*

Our directors present this report of Breast Cancer Care WA Inc.

### **BOARD**

The names of each person who has been a director during the year and at the date of the report are:

<i>Name</i>	<i>Date Appointed</i>	<i>Date Ceased</i>
Malcolm Day	2004	Current
Stephen Mummery	August 31, 2007	June 18, 2014
Simon Martin	February 19, 2009	Current
Dr Corinne Jones	March 18, 2009	Current
Bonnie Bullock	May 16, 2012	Current
Ralph Winter	May 16, 2012	Current
Pauline Gately	March 19, 2014	Current

### **PRINCIPAL ACTIVITIES**

The principal activities of Breast Cancer Care WA in the course of the financial year consisted of providing personalised emotional, practical and financial support and care to people affected by breast cancer and educating the community to increase awareness and early detection of breast cancer.

Support services are tailored to a broad range of specific client needs; however our core services are best defined through three categories being; emotional, practical and financial support.

#### *Emotional support*

In July 2013 our service provision was at capacity. To ensure we could meet the ever growing needs of the WA community, we appointed our third Breast Care Nurse and third counsellor. These two roles not only enabled us to see more clients, but also increase the depth and quantity of what we could provide.

#### Specialist Breast Care Nurses:

Breast care nurses play a vital role in providing emotional support and information at various phases across the continuum of care including diagnosis, treatment, rehabilitation, follow-up and palliative care.

In July 2013, we appointed our third breast care nurse. By June 30, 2014 we had increased our breast care nurse support by 75%. This included home and hospital visits and support in person, over the phone and by email.

When increasing our staffing levels, we set a goal of increasing our wellbeing check-ins with clients. Many women struggle once treatment finishes and ongoing support at this time is crucial to their wellbeing. With an additional breast care nurse we were able to increase these by 61% and our support by phone also increased by 150%.

We have also seen a 16% increase in the number clients we are supporting with advanced (or metastatic) breast cancer. With few services available to these ladies outside of Breast Cancer Care WA and their challenges often quite complex, we anticipate this area of need will continue to grow.

**PRINCIPAL ACTIVITIES (continued)**

Counselling:

Our qualified counsellors provide one on one counselling to clients and their family throughout the metropolitan area and including Mandurah. Telephone counselling is provided to those living in regional WA.

In September 2013, we appointed our third counsellor, increasing our capacity to service more clients by 11%. We also saw a 16% increase in the total counselling provided, not including the 10 monthly support groups they facilitate. Telephone counselling increased by 79% and well-being check-ins by email saw an increase of 125%.

Support Groups:

We currently facilitate 10 monthly support groups throughout the metropolitan area, including Mandurah. Studies have identified physical and emotional benefits for those attending support groups hence our investment in establishing new groups.

As a result of appointing our third counsellor we were able to establish a new monthly support group in Midland, bringing the total number of groups held in 2013/2014 to 88.

Therapy groups:

Additional staff also enabled us to offer Therapy groups designed to help women who have finished treatment and trying to find their 'new normal' on a more regular basis.

Running weekly for 5-6 weeks or across a weekend, clients undergo intense therapy in a group situation and gain from the experience of the counsellors as well as from other members of the group. As with support groups, studies have identified many positive outcomes for attendees.

***Practical support***

Practical Assistance:

Following surgery and during treatment, we provide help with basic living needs including; transport to and from appointments, help with looking after children, shopping, cleaning and gardening.

Thanks to our specially trained volunteers, we were able to increase requests for transport to and from medical appointments by 205%.

Information and Referrals:

We operate as an information service and also provide referrals to other agencies for financial counselling, wigs, prosthesis and lymphedema treatment etc.

***Financial Support***

A diagnosis of breast cancer can have a serious financial impact, especially if a woman is unable to work during treatment and her family is reliant on two incomes. In 2013/2014 we processed over 500 financial assistance requests.

***Education Programs***

Currently, one in eight women will be diagnosed with breast cancer in their lifetime. Early detection can dramatically affect their prognosis, therefore our education initiatives seek to teach women of all ages to be breast aware and develop good breast health habits.

**RESULTS FROM OPERATIONS**

*Operations Review*

A surplus of \$324,789 (2013 \$313,579) was made during the course of 2013/2014 compared to the budgeted deficit of \$186,920. This was primarily due to greater than budgeted returns from fundraising activities.

Our total revenue to 30 June 2014 is attributable to the following sources:

Events:	58%
Fundraising Programs:	17%
Sponsorship & Grants:	13%
Investment Income:	6%
Donations:	4%
Other:	2%

The application of those funds for the year ended 30 June 2014 was as follows:

Support Services:	31%
Fundraising Expenses:	38%
Administration Costs:	<u>16%</u>
Total Applied Funds	85%

*Further details of Breast Cancer Care WA Inc. results can be found in notes 3 and 4 to the financial statements.*

Combined with our success in delivering key services and activities in 2013/2014, Breast Cancer Care WA Inc. has accumulated 15% of total revenue. The accumulation of these funds has contributed to the increase in our cash and invested funds by \$376,790 to \$2,761,320 for the year ended 30 June 2014 (2013 \$2,384,530).

In terms of expenses, fundraising and administration expenses were under budget. Services expenses were lower than budgeted due mainly to less expenditure across the Indigenous and Education Programs, which saw a change in strategy.

**STRATEGIC HORIZON**

We continue to endeavour to meet and surpass our goals in providing support services for all Western Australians whose lives have been affected by breast cancer.

Further, the higher than forecast surplus has strengthened our ability to invest a portion of income into a sustainability fund that in time will assist with administration costs of the entity, so that a greater proportion of our fundraising revenue can be directed to our service provision.

Signed in accordance with a resolution of the directors  
For and on behalf of the Board:

**Malcolm Day**  
Director and Chairman  
Perth, 29/10/2014

**Simon Martin**  
Director and Vice-Chairman  
Perth, 29/10/2014

**DIRECTORS' QUALIFICATIONS, EXPERIENCE AND SPECIAL RESPONSIBILITIES**

Name	Qualifications	Experience	Special responsibilities

## Notes to the Financial Statements 30 June 2014

### 1. CORPORATE INFORMATION

The financial statements of the not-for-profit company, Breast Cancer Care WA Inc for the year ended 30 June 2014 were authorised for issue in accordance with a resolution of the directors on October 29, 2014.

Breast Cancer Care WA Inc. is an incorporated association operating exclusively in Australia. The nature of the entity's operations and principal activities are described in the director's report.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### (a) Basis of preparation

These general purpose financial statements have been prepared in accordance with the requirements of the Associations Incorporations Act [WA], Australian Accounting Standards – Reduced Disclosure Requirements, other authoritative pronouncements of the Australian Standards Board, Urgent Issues Group Interpretations and the ACNC Act 2012.

The directors have determined that Breast Cancer Care WA Inc is permitted to apply the Tier 2 reporting requirements (Australia Accounting Standards – Reduced Disclosure Requirements) as set out in AASB 1053 Application of tiers of Australian Accounting Standards because it is a not-for-profit private sector entity that does not have public accountability. The authorisation for the issue of these accounts is in accordance with a resolution of the directors on October 29, 2014.

#### *Historical Cost Accounting.*

The financial statements have been prepared on the basis of historical cost.

#### *Functional Currency.*

The financial report is presented in Breast Cancer Care WA Inc.'s functional currency which is the Australian dollar.

#### (b) Significant accounting judgements, estimates and assumptions

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and other various factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

#### *Significant accounting judgements*

The entity has entered into leases of premises and office equipment. Management has determined that all of the risks and rewards of ownership of these premises and equipment remain with the lessor and has therefore classified the leases as operating leases.

#### *Significant accounting estimates and assumptions*

The key estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of certain assets and liabilities within the next annual reporting period are:

*Make good provisions*

Provisions for future costs to return certain leased premises to their original condition are based on the entities past experience with similar premises and estimates of likely restoration costs determined by the entity's property manager. These estimates may vary from the actual costs incurred as a result of conditions existing at the date the premises are vacated.

*Provisions for employee benefits*

Provisions for employee benefits payable after 12 months from the reporting date are based on future wage and salary levels, experience of employee departures and periods of service, as discussed in Note 2(m).

The amount of these provisions would change should any of these factors change in the next 12 months.

**(c) Revenue recognition**

Revenue is recognised to the extent it is probable that the economic benefits will flow to Breast Cancer Care WA and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

*(i) Donations and sponsorships*

Donations and sponsorships are recognised on a receipts basis when the amount can be measured reliably.

*(ii) Rendering of services*

Revenue from services is recognised when the control of a right to be compensated for the services has been attained. This occurs upon provision of the agreed service. All revenues received prior to date of service are recognised as a liability for advanced bookings.

*(iii) Investment income*

Investment income comprises interest and dividends and trust distributions. Interest income is recognised as it accrues, using the effective interest method.

Dividends and distributions from entities are recognised when the right to receive the income has been established.

*(iv) Sale of Goods*

Revenue is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer and the costs incurred or to be incurred in respect of the transaction can be measured reliably. Risks and rewards of ownership are considered passed to the buyer at the time of delivery of the goods to the customer.

**(d) Grants**

Sponsorships and grants are recognised when there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income over the periods necessary to match the grant on a systematic basis to the costs it is intended to compensate.

**(e) Expenditure**

All expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all costs related to the category. Where costs cannot be directly attributed to a particular category they have been allocated to activities on a basis consistent with use of the resources.

Fundraising costs are those incurred in seeking voluntary contributions by donation and do not include costs of disseminating information relating to the activities carried on by the entity.

Service costs are those costs directly incurred in supporting the objects of the entity.

Administration costs are those incurred in connection with administration of the entity and compliance with constitutional and statutory requirements.

**(f) Cash and cash equivalents**

Cash and short-term deposits in the statement of financial position comprise cash at bank and in hand, and short term deposits with an original maturity of six months or less.

For the purposes of the Cash Flow Statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

**(g) Trade and other receivables**

Trade receivables, which generally have 30-90 day terms, are recognised and carried at original invoice amount less an allowance for any uncollectible amounts.

An allowance for doubtful debts is made when there is objective evidence Breast Cancer Care WA will not be able to collect the debts. Bad debts are written off when identified.

**(h) Inventories**

Inventories are required to be valued at the lower of cost and current replacement cost. Costs incurred in bringing each product to its present location and condition. Current replacement cost is the cost that would be incurred to acquire the inventories at reporting date. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

**(i) Plant and Equipment**

Plant and equipment is stated at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets as follows:

Plant and equipment 3 to 5 years  
Leasehold improvements 5 - 10 years  
Motor Vehicles 5 years

The assets' residual values, useful lives and amortisation methods are reviewed, and adjusted if appropriate, at each financial year end.

*Impairment*

The carrying values of plant and equipment are reviewed for impairment at each reporting date, with recoverable amount being estimated when events or changes in circumstances indicate that the carrying value may be impaired.

The recoverable amount of plant and equipment is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For an asset that does not generate largely independent cash inflows, recoverable amount is determined for the cash-generating unit to which the asset belongs, unless the asset's value in use can be estimated to be close to its fair value.

Impairment exists when the carrying value of an asset or cash-generating units exceeds its estimated recoverable amount. The asset or cash-generating unit is then written down to its recoverable amount.

**(j) Available-for-sale financial assets**

Available-for-sale assets are those financial assets that are designated as available-for-sale. When available-for-sale financial investments are recognised initially, they are measured at fair value. Any available-for-sale financial investments donated to the company are recognised at fair value at the date of company obtains control of the asset.

After initial recognition available-for-sale financial investments are measured at fair value with gains or losses being recognised in other comprehensive income until the investment is derecognised or until the investment is determined to be impaired, being either a significant or prolonged declined in value below cost, at which time the cumulative gain or loss previously recognised in other comprehensive income is reclassified to the statement of profit or loss and other comprehensive income.

The fair value of investments that are actively traded in organised financial markets is determined by reference to quoted market bid prices at the close of business on the reporting date. For investments with no active market, fair value is determined using valuation techniques. Such techniques include using recent arm's length market transactions, reference to the current market value of another instrument that is substantially the same, discounted cash flow analysis and option pricing mode.

It should be noted that the full impact of movements in market value would not necessarily be immediately reflected in the statement of profit or loss and other comprehensive income and the company's funds as these investments are deemed to be available-for-sale investments. The impact of market movements would be recognised in the income statement and company funds only if the investments were sold or if an impairment loss was recognised.

**(k) Impairment of available-for-sale financial assets**

Breast Cancer Care follows the guidance of AASB 139 Financial Instruments: Recognition and Measurement to determine when an available-for-sale financial asset is impaired. This determination requires significant judgement. In making this judgement, the group evaluates, among other factors, the duration and extent to which the fair value of an investment is less than its cost.

**(l) Trade and other payables**

Trade payables and other payables are carried at amortised costs and represent liabilities for goods and services provided to Breast Cancer Care WA prior to the end of the financial year that are unpaid and arise when Breast Cancer Care WA becomes obliged to make future payments in respect of the purchase of these goods and services.

**(m) Provisions**

Provisions are recognised when Breast Cancer Care WA has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When Breast Cancer Care WA expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of comprehensive income net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a pre-tax rate that reflects the risks specific to the liability. When discounting is used, the increase in the provisions due to the passage of time is recognised as a borrowing cost.

**(n) Employee entitlements**

*(i) Wages, salaries, annual leave and sick leave*

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date. They are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and are measured at the rates paid or payable.

*(ii) Long service leave*

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method.

Consideration is given to the expected future salaries and wage levels, experience of employee departures and periods of service.

**(o) Leases**

Operating lease payments are recognised as an expense in the statement of comprehensive income on a straight-line basis over the lease term.

**(p) Finance Leases**

Leases where the lessee has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the inception of the lease at the fair value, or present value, of the leased property. The finance cost is charged to the statement of comprehensive income at a constant rate over the lease period, and the property is depreciated over the shorter of the asset's lease term or its useful life.

**(q) Income tax**

Breast Cancer Care WA Inc. is exempt from the payment of income tax under the provisions of Section 50-45 of the Income Tax Assessment Act 1997. The entity holds deductible gift recipient status.

**(r) Other taxes**

Revenues, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables, which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Cash flows are included in the Cash Flow Statement on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

	<b>\$</b>	<b>\$</b>
<b>5. CASH AND CASH EQUIVALENTS</b>		
Cash at bank and in hand	215,324	591,399
Short-term deposits	983,690	791,024
	<b>1,199,014</b>	<b>1,382,423</b>

Cash at bank earns interest at floating rates based on daily bank deposit rates. Short-term deposits are made for varying periods of between one day and six months, depending on the immediate cash requirements of Breast Cancer Care WA, and earn interest at the respective short-term deposit rates.

Amounts received or due and receivable by auditors BDO Audit (WA) Pty Ltd of Breast Cancer Care WA Inc. for:

- an audit of the financial statements	1,500	1,500
--	-------	-------

**15. EVENTS AFTER THE REPORTING DATE**

No matter or circumstance has arisen that has significantly affected, or may significantly affect, the operations of Breast Cancer Care WA Inc., the results of those operations or the state of affairs of Breast Cancer Care WA Inc. in subsequent years.

## **Directors' Declaration**

The directors of Breast Cancer Care WA Inc declare that:

1. The financial statements, comprising the statement of profit or loss and other comprehensive income, statement of financial position, statement of cash flows, statement of changes in equity, and accompanying notes, are in accordance with the ACNC Act 2012 and:
  - a. comply with Australian Accounting Standards – Reduced Disclosure Requirements and the ACNC Regulations 2013; and
  - b. give a true and fair view of the entity's financial position as at 30 June 2014 and of its performance for the year ended on that date.
  
2. In the directors'/responsible entity's opinion, there are reasonable grounds to believe that the entity will be able to pay its debts as and when they become due and payable.

On behalf of the directors by:

**Malcolm Day**  
Director and Chairman  
Perth, October 29, 2014

**Simon Martin**  
Director and Vice-Chairman  
Perth, October 29, 2014
