# Workplace Giving

---

**Want to make a difference?**

For the cost of a cup of coffee a week, you can change the lives of people in WA dealing with breast cancer.

# 1 in 7 women will be diagnosed with breast cancer in their lifetime.

With no government funding, Breast Cancer Care WA relies solely on the generosity of donations from our community, to support over 1300 families dealing with breast cancer each year, and you can donate through workplace giving.

## What it means to people facing Breast Cancer

Our team provides support and information from the time of diagnosis, through treatment and follow up. We support anyone living in Western Australia with a breast cancer diagnosis, as well as their families with the following services.

# About Workplace Giving

---

Workplace Giving is a great way to give to the causes that mean the most to you and it's an easy way to make a difference to the lives of the people affected by breast cancer. It's as easy as a direct deduction from your salary. How much you donate is entirely up to you and all donations above \$2 per pay period are completely tax free.

## What are the benefits of Workplace Giving?

- An easy and convenient way to donate on a regular basis from your pay, receiving an immediate tax deduction for donations of \$2.00 or more per pay period.
- No need to keep receipts.
- It creates a more passionate and driven workforce, enhancing the company's desirability as a place to work for future employees and gives the employees tax benefits.
- Make an important contribution to the community.

*As a single parent to her young daughter, a son living with autism, her mum relying on her for support and a demanding job working with children with special needs, Lisa was used to taking care of everyone but herself. But when that devastating call came just days before Christmas, she bravely accepted it was her time to reach out for help...*

## How does it work?

The chosen donation amount is deducted from your pay before tax. This means that you receive the tax benefit straight away.

For someone earning between \$45,001 and \$120,000 per year, the benefits are as follows:

If you donate	It will cost you approx.	Breast Cancer Care WA receives	If your employer matches your donation
\$10	\$6.55	\$10	\$20
\$20	\$13.10	\$20	\$40
\$30	\$19.65	\$30	\$60

*The above should not be read to be tax advice. Please discuss the matter with your tax agent for information relevant to your situation.*

Workplace Giving is easy to set up, low in cost and low in effort. To set up your ongoing donations, contact your payroll department.
